Title: Date Code

Purpose: Define the two and four character date codes.

Application: Applies to all parts whose drawing specifies "Date code per ES1004" or "Date code per ES1004D".

Method of Application: The means of applying the date code to a product (roll stamp, chem etch, etc) will be specified on the appropriate design and/or process control document.

Two Character Code: When "Date code per ES1004" is specified, either the two character (month, year) or the four character code (day, month, year) may be used. The four character code is preferred.

Four Character Code: When "Date code per ES1004D" is specified the four character (day, month, year) must be used.

Two Character Code (month, year) for years 1996 through 2019.

First Letter Designates the Month		Second Letter Designates the Year			
N	January	D	1996	R	2008
O	February	E	1997	S	2009
P	March	F	1998	T	2010
R	April	G	1999	U	2011
S	May	H	2000	V	2012
T	June	J	2001	W	2013
U	July	K	2002	X	2014
V	August	L	2003	Y	2015
W	September	M	2004	Z	2016
X	October	N	2005	A	2017
Y	November	O	2006	B	2018
Z	December	P	2007	C	2019

Four Character Code (day, month, year) utilizes the two character code (month, year), preceded by two numbers representing the day of the month. Days 1 through 9 are designated by 01, 02, etc.

Example: **08PG** represents the **eighth day of March, 1999**.
