

WPS Checklist

Does the Worker Protection Standard apply to your facility?

Use the checklist to determine if your agricultural facility is required to comply with the WPS. Compliance is required if all statements are checked below.

- You own a farm, greenhouse, nursery or forest plantation where pesticides are used in the production of plants for commercial or research purposes
- Employees are hired who are not family members
- You hire or contract for employees to work with plants and/or to apply pesticides
- Pesticide have been applied to the site within the last 30-days and workers will be within a quarter (1/4) mile of a pesticide-treated area

For more details about the WPS, refer to
The Worker Protection Standard,
"How to Comply" Manual
The manual can be viewed online at
<http://www.epa.gov/agriculture/htc.html>
