## **SUMMARY OF CERTIFICATION REQUIREMENTS**

1. All potatoes planted within a farming operation must be approved for certification and entered for inspection.
2. All equipment and storage facilities within the farming operation must be used only for certified seed potatoes.
3. Each seed field must undergo at least two inspections during the growing season.
4. Storage facilities and equipment used for grading and handling seed potatoes must be cleaned, sanitized and inspected at least once a year.
5. No bacterial ring rot may be found on the farming operation to qualify for Generation, Primary Foundation or Foundation status.
6. The zero tolerance for bacterial ring rot means that no observed amount is allowed during inspection. The discovery of a single plant in the field or a single tuber in storage infected with bacterial ring rot shall cause rejection of the field or lot. The absence of a finding shall not be construed to mean that the field or lot inspected is free from the disease or disease causing agent.
7. Certification requirements are not complete on any lot of seed potatoes until it has been properly graded, identified with official tags or official bulk certificates, and has passed official grade inspection.
8. Final grading inspection and tagging is under the supervision of Federal-State inspectors and a certificate of inspection must accompany each shipment.

## **GRADE REQUIREMENTS**

The BLUE tag is issued on lots that have met all field and storage inspection requirements as well as standards higher than the U. S. No. 1 Seed Grade for size, condition, and physical defects.

The YELLOW tag is issued on lots that have met the same certification requirements as blue tag, however, there is a higher grade tolerance for certain physical defects and mechanical injury.

The WHITE tag is issued on lots meeting the same certification requirements as yellow tag, except that grade is according to agreement between buyer and seller as to size and certain defects.

## **WINTER TEST**

In order to help determine if any late season spread of certain virus diseases has occurred, all lots destined for certification are sampled at harvest for additional testing during the winter. Minnesota's winter test standards require that there be no more than one half of one percent of any or all virus diseases, and no spindle tuber or chemical damage detected in the sample to be eligible for planting for seed certification

## **DISCLAIMER**

A certification does not represent warranty of any kind, expressed or implied, including merchantability, as to the quality of the crop produced from the certified see potatoes. A certification represents only that the seed potatoes were produced, grade, sacked or placed in bulk, and inspected in accordance with Minnesota Rules, Parts 1555.6720 to 15556950.

## **NOTICE**

### **Line Selections / Varietal Strains**

The Minnesota Department of Agriculture Seed Potato Program certification confirms that each lot of potatoes in this directory have met the standards or requirements of State law, including but not limited to variety name and presence or absence of disease. This directory may also include line selection/variety strains of certain identifiable varieties. This is indicated as "source documented as". Although the certification tag may designate variety, strain or line selection names, that information is derived solely from the documentation supplied by the applicant for certification. Individual seed growers may have developed, or obtained from another source, lines/strains that possess yield, maturity, vine or tuber characteristics that may be different from the variety as originally described and named. A line/strain cannot usually be distinguished from the parent potato variety by conventional certification methods or by laboratory testing means. The seed grower is responsible for informing the seed buyer about line/strain existence and characteristics. Seed buyers should ask seed sellers about lines/strains that may be included among the seed lots listed.

## LIMITED GENERATION CERTIFIED SEED POTATOES

Field Planting Equivalency Table<sup>1</sup>

Agency	YEAR IN THE FIELD <sup>2,3</sup>

Canada	PE	E1	E2	E3	E4	F	C	----

<sup>1</sup> The purpose of this table is to express equivalency of terms used by various certification agencies for seed potatoes harvested from a series of successive field plantings. For specific criteria relating to disease tolerances and other requirements, the reader is referred to the certification regulations of the agency in question.

<sup>2</sup> The first field planting utilizes laboratory-tested stocks which may be tissue-cultured plantlets, greenhouse-produced minitubers, stem cuttings, or line selections. Contact agencies for details as to types of stocks planted in their programs.

<sup>3</sup> Terms used by agency for seed potatoes for a particular year in the field: C = certified, E = elite, F = foundation, G = generation, N = nuclear, PE = pre-elite.

<sup>4</sup> If lots originate at Cornell-Uihlein Farm, the first three generations (G1-G3) are also designated by a (U) to denote source.

<sup>5,6</sup> FY = Foundation Year (Wisconsin), FY = Field Year (Michigan; Maine).

Prepared by the Certification Section of the Potato Association of America.

Revision Date: 12/2017

## FINAL APPROVED LIST OF CERTIFIED SEED POTATO LOTS ELIGIBLE FOR RECERTIFICATION PLANTING

The following list of seed lots have met field inspection requirement for certification. Samples from these lots have been winter tested to determine their final classification and eligibility for recertification. Seed class designations are as follows: Primary Foundation (PF), Foundation (F), Generation 1 (G1), Generation 2 (G2), Generation 3 (G3), Generation 4 (G4), Generation 5 (G5). A variety may be protected by the Plant Variety Protection (PVP) Act. Buyers should validate the status of the variety from the vendors and variety owner.

Box 7160, Fargo, ND 58106-7160  
(701) 237-6062

Please call (651) 201-6620 to verify a current list of the Wholesale Produce Dealers.

Payment for produce - If there is a contract between a seller and a wholesale produce dealer, the wholesale produce dealer must pay for the produce that is delivered at the time and manner specified in the contract. If the due date is not set by contract, the wholesale produce dealer shall pay for the produce within 10 days of taking possession of the produce. A person claiming to be damaged by a breach of contract may submit a complaint to the commissioner within 40 days after the due date. The complaint must be a written statement of the facts constituting the complaint. After receiving a filed complaint, the commissioner shall investigate the charges.
